

It's an Apprenticeship at 'Your Move' for Claire as her career is on the up.

When Claire, aged 17, completed her GCSEs, she had no intention of staying at school. "I didn't like school and I knew that whilst I needed training to follow a career, I didn't want to do it in the classroom."

### Claire says:

Claire liked the idea of working in an office...and being part of a team, something which she hadn't really experienced at school, so she started looking for a job.

### Its 'Your Move'

Claire started as an Apprentice at Your Move in January 2007, and things are going very well. Her work covers answering the telephone, talking to the customers and preparing newspaper advertisements – but she says that there are a lot of other things to do during the day and she's learning a lot.

### Happy

Claire is very happy with her life since leaving school. "For a number of reasons, my school life wasn't a success – but my life since leaving school seems to be turning out that way. I'll be 18 soon. I'm happy with my life, my family are very supportive with my choice of career and I hope that I'll be at Your Move for a long time to come."
